

PETITION FOR HLM RENOVATION

Members of Quebec's National Assembly

Whereas the first five-year plan to modernize 73,000 HLM units in Quebec ends in 2012 and it has helped to achieve \$1.2 billion worth of major works;

Whereas the government said in December 2007 that it was necessary to invest \$4.2 billion over 15 years to preserve this valuable collective heritage that has an average age of 32 years and which has a serious lack of maintenance;

Whereas, pursuant to the federal / provincial agreement on public housing, CMHC must pay 55% of the cost of this joint program, but it is urgent to act since 31% of such financing agreements will not be in force anymore by 2021;

Whereas the 73 000 low-income households living in these buildings hope the government will continue its commitment to improve their living conditions;

We the undersigned ask the National Assembly to require that the Government of Quebec announce a new plan to renovate its housing stock, at a rate of \$280 million per year for five years, from 2013 to 2017.
